Sub: Appreciation Letter.

I am writing this letter concerning the above mentioned.

After cyclone Pam, we all witnessed the devastating damages it left with us including our schools.

It left us with hopeless hearts in terms of rebuilding and recovering.

Ekiye village kindergarden was also fully destroyed, and because it is administrated by the community, we wouldn't do anything to rebuild it.

Somewhat we are fortunate to receive some kind help from your organization. It is our sincere heart to express our appreciation in this letter. Thank you that you are considering early childhood as a priority.

The iron sheets you have donated along with other additional building materials from the other NGO's will help us build our first permanent kindergarden.

We pray that may the Lord God Almighty will continue to lead you with the heart giving work that you are doing.

May God Bless you.
